

Estimated Travel Costs

Your team will need funds for travel by air to three in-person Advocacy Learning Center events over 18-months. Grantees of the federal Office on Violence Against Women (OVW) have training and technical assistance funds set-aside within their grant awards. These funds are intended to be used for grantees and their project partners to attend OVW-sponsored training such as the Advocacy Learning Center.

Upon acceptance to the Advocacy Learning Center, we will ask you to determine if federal OVW set-aside training funds or other funds are available to you for travel expenses and we will discuss any subsidy needs.

The chart below provides estimated total travel expenses for teams of two or three persons.

- If funded directly by OVW, this is the estimated amount to designate from your OVW training funds, or these estimates will help you determine how much of your team's travel you can cover.
- If you are an advocacy partner in an OVW-funded project, or funded through a tribal government, you can use these estimates for discussions with the local grant recipient or administrator about available set-aside funds.

If selected and sufficient OVW or other funds are not available, or if you are not a grantee, OVW will subsidize your team's travel.
